TRUCKEE TAHOE AIRPORT DISTRICT BOARD OF DIRECTOR STAFF REPORT

AGENDA TITLE: Temporary Seasonal Tower Construction & Outreach Update

MEETING DATE: April 19, 2017

PREPARED BY: Marc Lamb, Aviation & Community Services Manager

RECOMMENDED ACTION: Review the staff "seasonal control tower" construction, event status and outreach update report, and ask questions as needed pertaining to the construction and program activity for the temporary seasonal control tower project.

<u>DISCUSSION:</u> This report serves as a Board update on the seasonal tower construction status and pilot and public outreach timelines. The project is on schedule. Staff anticipates a soft June 1, 2017 tower opening with an additional 2 week buffer built in for any unanticipated delays. Final details are being worked out in the LOA between Midwest ATC, Oakland Center and KTRK. The following is a list of completed project milestones and upcoming events:

- Excavating work completed for the tower "foundation pad" week ending 3/31/2017
- Tower Cab arrived at KTRK Wednesday, 4/05/2017
- Concrete prep-work completed, foundation pad footings poured week ending 4/07/2017
- Concrete pad poured Tuesday, 4/11/2017
- 6 containers arriving Friday and Saturday, 4/14-15/2017
- Vertical Construction begins Monday, 4/17/2017
- Midwest ATC tower manager arrives Monday, 5/01/2017

An outreach flyer, and the extensive pilot and community outreach calendar being conducted by staff are included at the end of this report.

WHAT'S NEXT: The Board of Directors will receive another update at the 5/24/2017 meeting.

FISCAL IMPACT: Approximately \$500,000 for FY 2016/2017.

PUBLIC COMMUNICATIONS: See Outreach Flyer and Outreach Calendar at end of report

SAMPLE MOTION(S): None

ATTACHMENTS: Timeline Photos, Tower-Info Outreach Flyer, Pilot & Public Outreach Calendar

IMPORTANT INFORMATION FOR PILOTS

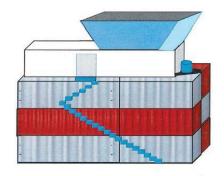

- Frequencies to know:
 - 118.0 Mhz AWOS
 - 120.575 Mhz TOWER/CTAF (After hours)
 - 118.3 Mhz Ground Control
 - 122.8 Mhz UNICOM/FBO
- The tower will operate seven days a week from 07:00 - 21:00 starting 6/01/17 through September

- Tower will extend control: 2,500' AGL within a 4.2 mile radius of the airport
- Class E influence will extend to the surface
- Seamless transfer from Oakland Center to KTRK Tower
- Tower will not have radar capabilities; Pilot will lose radar services about 10NM outside KTRK and will get into KTRK Tower's visual sight at 4.2NM

Tower structure will be 36' high. Building will be in place year-round. Construction will take place in April and May 2017. If the program is continued, KTRK will have Class D designated airspace in summer 2018.
