**Subject:** Comments regarding consideration for new hangars  
**Date:** Tuesday, February 25, 2020 10:43:58 AM

---

I am a local property owner and pilot, who has three different size aircraft, and unfortunately, I am having to send the aircraft back to my hangar in Arizona because there is no available hangar space in Truckee. In my hometown of Prescott, Arizona, when the lack of hangar space became critical, the city joined forces with private investors to build privately owned hangars located on leaseholds. I am hopeful that, regardless of how you proceed -- through your governing board or through a private/public relationship--you do something that will allow you to build additional hangars. If you choose to move forward in a private/public capacity, please consider me as an optional investor.

Thank you,  
Justin Scott
