A Closer Look At Your
Carbon Footprint When You
Fly to Truckee

Did you know?

The average
American's annual carbon
emissions are:

3,351 lbs from air travel

14,727 lbs
from home
electricity
use

12,897 lbs
from home
heating and
cooking

5,556 lbs
from vehicle travel

Thank you for visiting Truckee and Lake Tahoe.

Here are a few things you can do you reduce your impact
on our local residents and be a good traveler:

Please, **no early-morning departures** before 7:00 AM.

You will literally wake up thousands of people.

Please, **no late-night departures** after 10:00 PM.

Our neighbors would like to enjoy peace and
tranquility in these evening hours.

Follow our Noise Abatement Procedures or ask your
Flight Crew to do the same.

Offset your carbon by participating in our
Good Traveler Program.
