Re: 2023 Air Show & Family Festival Service Agreement

The Truckee Tahoe Airshow & Family Festival is asking the Truckee Tahoe Airport District Board if they are interested in retaining services from the AS&FF Committee for a 2023 Air Show & Family Festival for Saturday, June 24, 2023, or another agreed upon 2023 date.

The event would include all the elements of the 2022 Air Show & Family Festival.

In close review of 2022 event expenditures and anticipation of cost increases in 2023 along with less in-kind offerings from the Airboss, performers, and announcers, the hard costs to produce a 2023 Truckee Tahoe Airshow & Family Festival is \$184,000.

Planning and production costs is \$66,000, with \$22,000 going to each of the three nonprofits that produce the event (EAA local chapter 1073, Truckee KidZone Museum, and Truckee Optimist Club). The \$66,000 is put directly back into the community to support local youth.
