As a regular visitor to Truckee my vote is to keep the Airshow and Family Festival, it promotes community, the sciences and is just fun for all family members. It would be a great loss to discontinue this only once a year tradition.

Hello Airport boardmembers,

Please vote yes for continuing this amazing community event. The taxpayers money is well spent in the avenue. It brings out the volunteer base and it brings local families from far away to experience all the activities surrounding it..

Please vote yes, with the polite reminder that your position is also voted upon.

The airshow is the one of two historical community outreach events for us non aviation residents.

Please show us we count

Thank you.

Regarding Action Items 8 & 9:

Good evening and thank you for your time. I would be attending in person to provide this public comment, however, I will be at the ribbon-cutting ceremony for our new Downtown Park at the Community Arts Center.

I am writing to request that you approve the budget for the Airshow and the overall budget with the Airshow included. As a local expert on college and career readiness, with a passion for STEM and CTE, and also a local who volunteers my time in four different local non-profits that benefit our youth, I feel that the Airshow is an event worth continuing to invest in for our community.

I have volunteered at several of the Airshows and have witnessed firsthand the positive impact that this event has on our local youth and families. I have paid special attention to the impact directly, and indirectly through funds raised, that the Airshow has on the most underserved populations in our community. The Airshow is making a large dent when it comes to equity and impact for our youth and families.

Thank you for continuing to invest in youth and their families.

Dr. Todd M. Wold

Vote to Save the Air Show as a two day event  
Welcome military aircraft in the Truckee air space  
Bang for the Buck is more than giving to non profits

Thanks for the Tower. The tower has made for calm, focused pilots, and that makes everyone safe.

Mike Finney
