Attention: Lauren Tapia

please forward my comments, Thank you.

3 May 2022

To the Truckee Tahoe Airport District Board:

I support the plan to pursue building a proposed third runway, #1634, that reduces residential air flight over the Town of Truckee. The benefits to reduced airplane noise over residential neighborhoods and the enhanced safety for Truckee neighborhoods is worth it to taxpayers like me who fund the airport, but do not own a plane or use the airport.

I understand that some of our local pilots have some issues regarding their skill level for learning how to take off and land on a new proposed third runway, #1634. As a Board, please encourage these local pilots to upgrade their skills to use the proposed third runway, #1634, to reduce noise pollution over the Town of Truckee as well as improving the public safety of the air and sky over the Town of Truckee.

Less airplane noise pollution and enhanced safety for residents on the ground from plane accidents certainly coincides with the Town of Truckee's planning goals to: "Protect and Enhance Truckee's Mountain Towns Character."

Thank you,

Derrick Adamache

Truckee, CA
