

**TRUCKEE TAHOE AIRPORT DISTRICT
BOARD OF DIRECTOR STAFF REPORT**

AGENDA TITLE: Consideration to Purchase a new 5K jet refueler along with the surplus sale of the District's current 2002, 3K Jet Truck

MEETING DATE: June 28, 2023

PREPARED BY: Dave Hoffman, Director of Operations and Maintenance

RECOMMENDED ACTION: Request the Board to allow the surplus sale of the District's 2002 3000-gallon jet refueler along with the purchase of a new 5000-gallon jet refueler.

DISCUSSION: The TTAD has the need to replace our 2002, 3K jet refueler due to non-compliance with the CA Air Resources Board's regulations on allowable diesel particulates and nitrogen oxide pollutants. The refueler has a quoted value of \$55K-\$65K from Avfuel, our current aviation fuel supplier. The sale would be used to offset the quoted price of \$316,350 for a new 5K jet refueler replacement. The larger capacity would help accommodate Sustainable Aviation Fuel availability even during potential supply shortages.

WHAT'S NEXT: Upon approval from the Board, staff will begin the process to procure a 5K jet refueler and work with Avfuel to find a buyer for the 3K jet truck.

FISCAL IMPACT: The expected direct cost to the district would be \$261,350, with the anticipated sale of the 3K fuel truck at \$55,000.

SAMPLE MOTION(S): I move to (approve, deny, continue) the purchase of a new 5K jet refueler and the sale of the 2002 3K jet refueler through Avfuel.
