

# Aviation & Community Services Report

February, 2024

## Director of Aviation

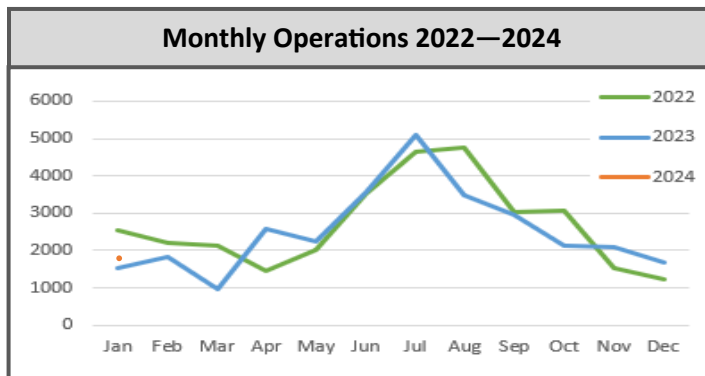

Lease repapering and documentation updates into the new lease management system continue. Of the 146 new leases signed (as of 2/21/24), 99% have signed up for Fly Quiet, and 97% for Fly Safe. The Fly Safe schedule is coming together for 2024, we have an AOPA day long “Rusty Pilots” course in April, tentatively scheduled a Cirrus Mountain Flying course in Jul/Aug, and working to schedule another GA mountain flying course this summer. Our intent is to schedule one FAA WINGS event per month; four have been scheduled to date. Hangar Revitalization continues, and we are scaling up our use of ABRM (formerly “Go Civix”) in this regard.

## Hangar Wait List

Two hangars are coming available in March and tenant screening is taking place at this time. Wait-lists remain on hold.

	Inventory	Wait List
<b>Executive Hangars</b>	30	41
<b>Super-T (48’ door)</b>	11	13
<b>Large-T (44’ door)</b>	57	25
<b>Regular-T</b>	129	42
<b>Total</b>	227	121

January Operations by Type — 3 Years					
	2022	2023	2024	% Change From 2022	% Change From 2023
Helicopter	80	51	63	-21%	24%
Jet	425	254	223	-48%	-12%
Piston	1,360	859	1,024	-25%	19%
Turboprop	667	369	426	-36%	15%
<b>Total</b>	<b>2,532</b>	<b>1,533</b>	<b>1,736</b>	<b>-31%</b>	<b>13%</b>

## Operations & Comments

January saw many days with morning fog and Instrument Meteorological Conditions. While the airfield only closed on three occasions for snow removal, operations were not much higher than January 2023 which saw historic snowfalls. A Vans RV12 was introduced to the local aircraft rental inventory and was mostly used by CFI’s getting trained on how to teach in it. Two operations occurred during Quiet Hours, both were departures off Runway 2.

Nineteen households reported annoyance with one household accounting for 72% of comments. On Tuesday, January 30 an FAA Flight Check occurred at KTRK. The operation required a Beechcraft King Air to fly five low-altitude passes over Glenshire towards Runway 20 to inspect the Visual Approach Slope Indicator (VASI) that has been out of service since July. This unusual flight pattern generated comments from nine households.

January Comments by Type — 3 Years					
	2022	2023	2024	2023 Ops. Per Comment	2024 Ops. Per Comment
Helicopter	0	0	1	N/A	63
Jet	18	9	11	28	20
Piston	24	6	42	143	24
Turboprop	1	3	41	123	10
<b>Total</b>	<b>43</b>	<b>18</b>	<b>95</b>	<b>85</b>	<b>18</b>
