

TRUCKEE TAHOE AIRPORT DISTRICT
ACAT AGENDA ITEM SUMMARY

Topic: Night Ops

Purpose	Information: X Guidance: Decision:
Last Action	In February, an ACAT subcommittee was formed and began review of Night Operations at Truckee Tahoe Airport.
Facts	<p>The 3-member sub-committee researched current and historical night operations at KTRK as well as future forecasts for night operations. The study looked at the period of night as defined by the FAA as well as operations which occurred during the voluntary curfew hours.</p> <p>A legal subject matter expert was hired to review the draft report and make recommendations to the group. After several months of review and research of current operations and forecasts based on Master Plan data and aviation trends, the sub-committee has put together a guiding document for District decision makers.</p>
Discussion	The sub-committee will present the <i>Night Operations at Truckee Tahoe Airport</i> paper to ACAT and discuss with the group any necessary changes for presentation to Board of Directors at the September 24 th regular Board meeting.
Recommendation	Review document. Approve document or recommend changes.
