

TTAD Core Goals 2012-2013

- Fully engage Master Plan Process with emphasis on pilot and community involvement and collaboration. Have draft plan completed by Sept. 30, 2013.
- Enhance and improve airport pavements and facilities and fully leverage FAA AIP funding where possible.
- Emphasize aviation safety. Identify and implement programs and airport improvements to further enhance operational safety.
- Continue vigorous and energetic community and pilot outreach programs.
- Update and enhance Airport District communication tools including District website, pilot notification system, community newsletters, and other methods of communication.
- Consider financial stability and sustainability in all things we do.
- Promote effective relations and communication between Airport Staff, Board of Directors, and Airport Community Advisory Team.
