Gentleman, I am currently traveling out of state and wanted to get this request to you before the Friday deadline. I can put this in hard copy letter if you require when I return on Monday. Thanks Bob Bell

September 5, 2012

Gentleman,

I would like to be considered for a position on the Community Advisory Team. I have been a full time resident in the Sierra Meadows area for the past eight years.

I am a former pilot with over 350 hours in high performance sailplanes and over 150 hours in Cessna 150's and 175's. Most of my flying experience has been in the Sierra mountains and many of my sailplane flights originated and ended from the Truckee airport and I am very aware of the unique weather conditions that pilots are presented with. I am confident that my experience has taught me valuable lessons that I

can provide to the Board and the airport management as well as my observations of pilot habits flying approaches and departures over our neighborhood.

Further, I am also aware of the valuable asset the airport is to the community and strongly support increase and enhancement of relations with all citizens within the district.

My professional experience has been as founder and still partner in a Sacramento commercial general construction company with over 30 years completing shopping centers, public buildings, and medical facility interior and exterior renovations.

I have talked with Gerald Herrick and we have discussed the responsibilities and commitment this position requires and he supports my interest.

Please contact me if you have any questions that I have not addressed

Sincerely
Robert Bell
