

② Leigh Golden (Pilot)

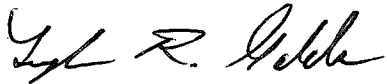

### Letter of Intent

August 22, 2012

I would like to be considered for membership in the ACAT Committee at the Truckee Tahoe Airport. I received my pilot and aircraft mechanics licenses in 1975. I started flying in 1983 and went on to earn Flight Engineer (turbo jet) DC-10, type ratings in Lear Jet and Boeing 757-767. I have flown in and out of KTRK for 30+ years and currently fly a King Air F-90-I based in KTRK. I also work at KTRK as an A & P mechanic and aircraft inspector at Sierra Aero.

I have been involved with open space preservation in eastern Truckee for 10 years and currently serve as Board President for Saving Open Space Glenshire.

Thank you,

Leigh R. Golden

Phone: (530) 414-3463
