

ACAT

Board Report

Andrew Terry

- Community Outreach
 - Learning what works, i.e. reaches a sufficient amount of people, e.g. formal homeowners meeting not well attended
 - Community Outreach Presentation now ready for general use
- RNAV
 - Focus on 19 vertical guidance
 - 28 departure high risk, high cost

Status (cont.)

- Roadshows
 - Concord, 15th November
 - Livermore ?
 - Whispertrack changing business model
- Repositioning
 - Linked up to FAA registration database
 - We're not seeing many (any ?) opportunities to keep bigger airframes on the ground
 - E.g. Netjets never uses the same airframe twice here for operations within 3 days
 - Short-term hanger rental test

Status (cont.)

- iPad
 - We are proposing that The Board get iPads
 - Aviation industry adopting iPads
 - E.g. UAL's 11k units, Delta actively testing
 - ACAT have seamlessly transitioned to a paperless environment
 - Significant cost savings if The Board similarly transition
 - Ease of distribution of information
 - Each ACAT member is building a library of aviation and TTAD related information
