

General Manager's Report

- Item 1 – FAA and SDI Training
 - Item 2 – Neighborhood Outreach Calendar
 - Item 3 – Nevada County Regional Transportation Plan
 - Item 4 – Project Tracking List (Attachment)
-

Item 1 – Report on FAA Western Pacific Region Conference and Special Districts Institute Training

I had the opportunity to attend the FAA conference in Anaheim CA on June 7 and 8. The main focus of the conference centered on strategic partnerships and the inner workings of the FAA. There was much discussion on funding and the future of the Airport Improvement Program (AIP). I will provide a brief report regarding important points from the conference.

I also attended the Special Districts Institute Training on June 9th and 10th in San Diego. Again, I will give a brief report on items of interest from this training. As part of this training, I was able to identify the other California Airport Special Districts. They are as follows:

- Inyokern Airport District
- Santa Maria Public Airport District
- Minterfield Airport District
- Monterey Peninsula Airport District
- Mojave Air and Space Port
- East Kern Airport District
- Cameron Park Airport District
- Yucca Valley Airport District

Item 2 – Neighborhood Outreach Calendar

We recently attended the Business Expo at the North Tahoe Events Center in Kings Beach sponsored by the North Tahoe Chamber of Commerce. It was a great event with a strong turnout but smaller than the event in May at Squaw Creek. We are currently working on scheduling a few dates this summer to participate in Truckee Thursdays and have two community block parties in Sierra Meadows and Processor Estates in August and September. We are always interested in Board input regarding key events staff should target. We are also currently working with ACAT at some targeted neighborhood meeting to discuss the airport similar to the meetings held in 2007.

Item 3 – Nevada County Regional Transportation Plan

Recently the District received a copy of the Draft Nevada County Transportation Plan which documents short term (2010-2020) and long term (2020-2030) regional Transportation policy direction. Staff is currently reviewing the plan and will send comments to the Transportation Commission. There are 3 pages of the Plan devoted to our airport, which are in need of correction and updating. I will give a brief report on this item.

Item 4 – Project Tracking List

Please review the attached Project Tracking List. To assist in your review, items listed in red have new information and updates. The Priority color key is as follows:

RED: High Priority. Staff is currently working on the project.

ORANGE: Medium Priority.

BLUE: Low Priority.

New Projects This Month

- Ref#9 and #17 – These 2 items have been separated this month. We will be tracking Load Bearing as an Airport Operations Project and the Runway 10/28 Project under Capital Projects.

Completed Projects Removed From List

- No projects were removed this month.

Quick Updates

- Ref#7 – Spring News Letter – Kevin Bumen
- Ref#13 – Alder Hill Beacon Tower – Kevin Smith
- Ref#22 - Self Serve Island – Phred Stoner
