Subject: Airport Board

Kevin,

I would be honored to serve the Airport board by being appointed to Katie's position. Katie and I both have a very strong passion for flying and I intend to continue to fly from the Truckee airport. Katie and I spoke about her desire to run for this position for a long time and we both knew it was an important position for us personally and our community. If selected I intend to serve on the board with Katie's same interests and commitments. We talked at length about all her feelings at the airport during her campaign, before and after every meeting. I have a strong desire to keep her passionate commitment to the board and her constituents alive and working hard. It will be my goal to balance the airports needs and desires with a strong commitment to the community's needs.

I look forward to serving the airport and the community with Katie's integrity. Please let me know if you have any questions or need anything else.

Thank you,

Jim
