

Seminar Series

Becoming a Better Pilot Through Personal Aircraft Maintenance

Join us in Truckee for one of the final Fly Safe Seminars of the year. Local pilots and A&P/ IA's Doug Lee and Bjorn Anderson will showcase how working on your own aircraft can make you a better pilot. Live, inside a hangar these mechanics will showcase what you may not know you can and cannot do on your aircraft. They will touch on preventative maintenance from a pilot perspective and what the FAA allows and doesn't allow.

About The Speakers

Doug Lee and Bjorn Anderson are airline captains as well as A&P/IA's. Doug is the owner of several aircraft including a Pitts Special and is a helicopter CFI. Bjorn manages the Flight Operations Quality Assurance Program for an airline. Additionally, both can perform Pitot Static inspections for any aircraft.

Event Details

Thursday, Oct. 30 @ 5:30pm

NEW LOCATION: Hangar A9
