

Seminar Series

Improving Your Communications With ATC

Join us for this month's Fly Safe seminar featuring Air Traffic Controllers Steve Ingebretson and Justin Martin. This session focuses on real-world situations, common communication challenges, and insider perspectives to help make you a safer pilot. Steve and Justin will share insight from their extensive ATC and pilot careers to help you sharpen your phrasing, reduce frequency clutter, and learn what makes ATC tick. Earn WINGS credit with your fellow pilots and bring the questions you've always wanted to ask a Controller.

About The Speaker

Steve Ingebretson has been controlling traffic in Truckee since 2018 and became Tower Manager last year. Prior to Truckee, Steve spent time at KSQL, and KCCR and he also flies corporate jets. Justin Martin is a NATCA representative and works Oakland Center in the airspace above Truckee.
