**Welcome to new members and attendees with a program introduction from the General Manager, Robb Etnyre.**

**Monthly ACT Topic: Truckee Tahoe Airport District's Sustainability Planning & Annual Budget Process** Truckee Tahoe Airport's Sustainability Planning as part of the annual budget process is a common way of planning success for our community focused on a triple bottom-line approach. Subjects will include natural resource conservation, economic viability, operational efficiency, and social responsibility. The Federal Aviation Administration (FAA) has adopted Airport Sustainability Planning as a core foundation of future growth. A triple bottom-line approach in airport sustainability planning is focused on what is commonly called the three P's (People, Planet, Prosperity, or Profit).

**Questions and comments on other matters of interest to ACT.**

**Topics for future forums: To be determined**

**What is ACT:** ACT is a monthly virtual public forum established by the General Manager to gather interested airport users and District constituents to discuss items of public interest and disseminate information regarding activities and programs of TTAD. ACT is meant to be a free flow of ideas and information between the District Staff, airport users, and the public. ACT is a method for District Staff to convey information to stakeholders but also a means to receive, consider, and convey public comment and sentiment regarding topics of interest to the Board of Directors at their monthly Board of Director meetings.
