

FLY SAFE

Pilot Proficiency Seminar

Truckee Hazards: CFI Roundtable

Learn from a panel of Truckee CFI's as they share their thoughts and stories about the hazards of flying in our mountainous environment. This event will be available both in person and via Zoom. Bring your questions and prepare for a roundtable-style event that will help build your situational awareness and raise the caliber of our airspace.

About The Speakers

With ratings including CFI, CFII, MEII, ATP, DPE and CFI- Seaplane our distinguished instructor panel encompasses a broad array of perspectives and decades of flying. From gliders to business jets, patternwork to intercontinental piloting, these CFI's will share their experience in all categories of flight.
