

FLY SAFE

Pilot Proficiency Seminar

Professional SOP's For The GA Pilot *plus* The Ins & Outs of MOA's: What You May Not Know

What makes commercial aviation safe and General Aviation not so much? Jason Miller of The Finer Points and Howard Donner join us to share the techniques professional pilots use that aviators of all experience levels can adopt. This seminar will also feature a rousing discussion of the myths and consequences of flying in MOA's and SUA's with special guests from regional Air Traffic Control and the military.

About The Speakers

Jason Miller is the creator of The Finer Points, a YouTube channel and podcast that develops systems and courses to help pilots improve their flying. Co-hosting is MD turned CFI and Wilderness Medicine & Survival Specialist Howard Donner along with a couple of his hand-picked guests.
