

FLY SAFE

Pilot Proficiency Seminar

Tahoe Turbulence at the Air Race Classic

On June 18, 2024 Truckee pilots Sarah Krammen and Raj Karwa set out on a 2,600 mile flying adventure. It was the first time either had entered the Air Race Classic, a storied event in women's aviation that put racers on a course from Illinois to Colorado. Sarah and Raj join us to tell their story of the aviation skills they honed to make for a smooth landing on the podium. They will also share how they are using their voice to promote the continued growth of women in aviation.

About The Speakers

Raj Karwa is a computer engineer who began flying in 2013. Nowadays she can often be found flying her Skylane in the backcountry. Sarah Krammen taught math at Truckee High School before transitioning to the life of a pilot. She is now a multi-engine commercial pilot and CFII at KTRK.
