Seminar Series

TLAR in Action
Enhancing Emergency Response During Takeoff

Retired Air Force Colonel Jeff Brown joins us to share how his decades of experience flying both military and GA aircraft helped him develop the TLAR app. TLAR "That Looks About Right!" is designed to improve general aviation situational awareness of aircraft performance. This session will briefly survey its capabilities and then dive into dealing with engine loss on takeoff and how TLAR can help. Score WINGS credit and hang with your fellow aviators at this TRK Fly Safe event.

TLAR
Aircraft Performance App

About The Speaker

Jeff Brown is the creator of the TLAR mobile app. He is an Air Force Academy graduate, a retired USAF Colonel, C-130 pilot, veteran of five combat deployments and works for the think tank, RAND. Jeff has three masters degrees and loves flying the Idaho backcountry in his Glasair Sportsman.
