

Dear Truckee EAA chapter (1073),

Thank you so much for sending me to camp this year! I've had such an amazing time - I've discovered new aspects of the aviation world that I can't wait to explore. I had an awesome experience at Air Venture 2015, it was like nothing I've ever seen before. The airshow was unbelievable, and the sheer number of tents was overwhelming. I met so many people who shared a similar love for flying, and I learned about new areas of flight such as powered flying and aerobatic flying. I had the opportunity to take a flight lesson with one of the EAA CFI's, and the flight was incredible. I got to explore powered flight and learn about the dynamics of powered flight. I learned new concepts about the mechanics of flight. Everytime I walk away from the EAA classroom, I leave equipped with new information that I'm excited to apply to my flying. During workshop activities, I learned flight related skills involving composite materials, woodworking, and aviation technology. More than ever before I'm excited to take to the sky. As I learn more, my curiosity grows, as does my love for flight. I can't thank you enough for providing me with the opportunity to attend

the EAA 2015 Advanced Air Academy. I hope to tell you more about my time at the academy when I return to Truckee!

Sincerely,

Paige Hourigan.
