KTRK RAMP ACCESS PLANNED GATE CLOSURES

Summer 2016 saw increasingly heavy ramp side aircraft and vehicle traffic at KTRK. Truckee Tahoe Airport management has been reviewing the latest FAA General Aviation Airport ramp access and security guidelines.

Improving ramp control options in areas such as vehicle movement around aircraft, speed limits, vehicle travel lanes, security and third party vehicle operations (think taxis & limos), have all been considered by airport management.

By the beginning of summer 2017, (prior to the start of temporary tower operations), all airfield ramp access gates will be closed 24/7, requiring a ramp access "gate card" for entry or exit.

Phase 1 of this process involves closing Gate 5 (Air Show Way by the jet ramp blast fence) and Gate 6 (west side of the terminal building) on Monday, January 9, 2017. Gate 4 (west side of airfield by CareFlight) and Gate 7 (by the terminal building playground), will remain open daily from 6:30am to 9:30pm until further notice.

Hangar and commercial tenants will be able to operate airfield gates with ramp access cards. If you need new or replacement airfield access gate card(s), please come to the Administration Office with I.D., Monday through Friday between 8am and 5pm.

For questions or additional information on the gate closure program please contact Aviation & Community Services Safety Manager, Stacey Justesen, at (530) 587 4119 x125 (Mon-Fri).
