SPENDING PRIORITIES REVIEW

Strategy area 5.2 of the Strategic Plan discusses the District's spending priorities. Presented below are the priorities as listed in the Plan for the Board to review.

Objective 2

The District will apply the following hierarchy of spending priorities when making financial decisions:

- > Protect the operational capabilities of the District
- > Institute and maintain programs to reduce noise and annoyance
- Pre-fund future expense commitments when those commitments are certain, and it is financially feasible to do so
- Direct community investment will take priority over expenditures that would have an indirect community benefit.

Staff would like the Board to give direction either affirming or changing these priorities, as they directly affect decisions made during the budget process.

BUDGET ASSUMPTIONS

Airside Revenues

- 1 100LL: Sales of 100LL are tracking slightly less 2%, to the previous year's 79,000 gallons. The cost per gallon is down about 11% from a year ago. Gross profit over the past twelve months has been tracking at slightly above \$1 per gallon. We are recommending budgeting 100LL sales at 77,000 and gallons and a similar gross profit of about \$1.00 per gallon.
- 2 JetA: Sales of JetA have been rising year over year for the past few years after the decline in sales brought on by the recession. Last year sales were 332,000 gallons and the current year looks like about 20% increase over the previous year depending on summer sales. The cost per gallon is down about 20% from a year ago. Gross profit over last year has been tracking at \$2.20 per gallon, slightly over 50%. We are recommending sales at 350,000 and a similar gross profit of about \$2.20 per gallon.
- **3-10 Other Airside Revenues**: Tiedowns and Transient Use Fees, the other significant airside revenues, are tracking slightly higher than budgeted. The rate schedule currently in place is under review and likely will see increases in rates and number of events.

Other Revenues

- 13-14 Hangars: Hangar rental rates are increased based on the Consumer Price Index (CPI) and are adjusted in September. We estimate 1% increase in September. Occupancy has increased slightly over previous years with waitlists for both T-hangars and Executive hangars.
 - o T-Hangar Rental- \$970,000
 - o Executive Hangar Rental \$380,000
- 17-18 Other Business Leases: A CPI increase of .5-1% will be included for Red Truck, Hertz, Careflight, Soar Truckee, SurfAir and Sierra Aero. In addition, the 2016-17 year will have 9 months of rent, about \$180,000, from the new office building. Concessions (car rental), primarily from Hertz, is about \$80,000/year. We will budget similar revenues.
- 21 Warehouse Leases: Similar CPI increase will be factored in the budget. We have had a vacancy in the current year, and will budget with the vacancy. In addition, we anticipate making improvements to the warehouse space to make it more appropriate for light industrial use.

Cost of Goods

• **26-27 Fuel costs:** See the discussion above under Airside Revenues on fuel cost and gross profit on fuel sales. We will budget based on an average cost over the previous year.

of these positions enable a significant increase in community and pilot outreach. This past year we did utilize some snow removal staff, not a significant impact. This summer, staff will bring a cost of living adjustment to the Board based on the CPI, already discussed. In addition there will be a 3% merit increase factored into the budget.

• **35-38 Benefits:** The employer contribution for CalPERS for 2016/2017 will increase for all three tiers of pension coverage and will be budgeted accordingly. Additionally, there is an annual contribution of \$80,000 on top of these percentages:

Tier	Contribution	# Employees
	Rate	
2.7%@55	11.63%	11
2%@60	7.06%	2
2%@62	6.56%	9

Health insurance includes medical, dental, vision, and life insurance. The employee contributes 7% towards the cost of these benefits. The medical and vision insurance policies are brokered through SDRMA and they recommend budgeting an increase of 3.5% on the medical and minimal change on the other coverages. The updated amount for health insurance has been confirmed for the calendar year 2017.

39 Workers compensation is also brokered through SDRMA and rates are based on a percentage employee's payroll. The current year expense is about \$55,000.
